

CLASSIC AIR

The ClassicAir offers an easy way to improve the indoor air quality in your home environment by removing smoke and odors.

WHAT ARE THE BENEFITS?

- Quickly and effectively removes smoke from the air, including tobacco smoke
- Acts as a powerful deodorizer to reduce or eliminate the toughest odors
- Low maintenance requiring no filters (uses a lint screen to help keep the interior of the unit free of dust and dirt and optional filtration is available)
- Reproduces the clean, fresh scent of a thunderstorm
- Optional prefilter and pleated paper filter

HOW DOES IT WORK?

The ClassicAir is like a thunderstorm in a box for your indoor air. It mimics the negative and positive ion field generation that occurs during a thunderstorm to naturally clean the air of odors and even smoke.

SPECIFICATIONS

MODEL	CLASSICAIR
Max O3	360 mg/hr
Technology	Needlepoint ionization RF pulse ionization Scalable ozone
